Step-by-Step How to Play

Place numbers 1-9 in each box, column & row.

Each box, column & row must contain all digits 1-9.

Do not place duplicate numbers in any box, column or row.

Start by looking for single missing numbers

Common Mistakes to Avoid

Guessing number placement, a good Sudoku puzzle should not require you to guess.

Forgetting to cross-check boxes, columns and rows.

Playing too fast, take your time and you will naturally improve while making less errors.

Beginner Tips

Start with the number 1 then move onto 2, 3, 4....

Stuck on a particular number, move onto the next and come back to it later.
